**Invitation to the 50. International Stuttgart anniversary autumn fair
for minerals, fossils and equipment on September 25th and 26th, 2021**

New location: Kubino, Ostfildern-Nellingen!

Dear exhibitor,

We are pleased invite you to our **50th anniversary fair** as an exhibitor!

You have surely noticed the new location! The usual date has also been changed to an earlier one in the year. We expect this date to fit better into the fair schedule and to reduce conflicts with other fairs.

We had to say goodbye to our old location in Fellbach because of the constantly increasing hall costs and would like to use the change as an opportunity for a fresh start.

We decided to bring the focus back to the origin of our fair. We want to address collectors and those interested in the field of minerals and fossils and offer all of them an attractive event. It will certainly be initially a smaller event than past Fellbach-fairs, but it will also address those we want to reach more precisely. We hope that we will again be perceived by collectors as a mineral and fossil fair. That will take courage and stamina, but for us as a mineralogical and paleontological association it would be difficult to represent the organization of the fair without these changes. We also feel we have a responsibility to respond those who have rightly complained in recent years that we have lost focus and admitted too much "junk". We'll try our best, but we have to rely on your support.!

We will limit the category of jewelry and gemstones to high-quality, individual jewelry made of precious metals (gold, silver, platinum). Opals and meteorites and individual jewelry made from them play a special role and are also part of our portfolio.

Prior to registration we will pay more attention to the items you intend to offer and decide whether your offer fits our event. We reserve the right to ask for removal of items on site before the start of the fair. Please note the relevant information in the regulations provided with the registration documents.

Many fairs have disappeared from the calendar in recent years, and that happened without Corona. The pressure on organizers is steadily increasing, but we intend to continue our efforts to stay a renowned event in southwest Germany. We hope circumstances improve in 2021, enabling "normal" events again, with or without corona-related rules.

The new location in the Kubino in Ostfildern-Nellingen offers a beautiful setting for our event. You can see the details on our **extra information sheet** and soon on our website. We have a good connection to the Stuttgart public transport network, good parking in the area, numerous hotels

and the location can be reached very quickly from the motorway A8. We hope to attract a new, curious audience in and around Ostfildern-Nellingen and hope that the Fellbach audience will continue to stay with us.

We would be very happy if you register for our event! The allocation of space is effected at the discretion of the fair management and the specifications of the hall operator. The fair management reserves the right to reject registrations in accordance with the regulations. Charges are now per table instead of meters, there are two table dimensions available plus separate wall spaces.

Extensive advertising measures are planned on our part to support the event. The press, internet portals, posters, flyers, as well as advertising measures in Stuttgart public transport network should help to attract enough visitors. If you want to support our joint event by advertising to your customers, we will be happy to send you posters and flyers from March 21. Please let us know your needs.

The fair management is the promoter and organizer; liability for personal injury or damage to property on your part in the course of the event is not assumed by us in any form.
